

Cubicool International is proud to launch its new CX+ - VD vertical-discharge multiplex systems, for medium- and low-temperature applications.

These new generation units are weatherproof and supplied with fully integrated vertical-discharge coated microchannel condensers, and speed controlled fans.

Standard units are fitted with energy-efficient Tecumseh reciprocating compressors and Copeland scroll compressors (digital and standard). Units are also fitted with standard line items and electronic oil management.

Complete integrated electrical panel (system controller, compressors, condenser fans, oil management).

BENEFITS

- Cost effective
- Energy efficient
- Small footprint
- Tropical condenser selections
- Coated condensers
- Semi-hermetic compressor options available

Cubicool International is committed to ensuring its products are designed, manufactured and assembled to operate in the most energy-efficient manner possible, using the latest available technologies and design methodologies in keeping with best industry practice
