

# cubiflow *hybrid*

Cubiflow hybrid condensers are based on the standard Cubiflow range but designed to maximise cooling efficiency, utilising a wet-pad cooling system in advance of the standard aluminium microchannel condensers. Units are fitted with pumped circulation system, auto refill and controlled drainage pump.

Cubicool International is committed to ensuring its products are designed, manufactured and assembled to operate in the most energy-efficient manner possible, using the latest available technologies and design methodologies in keeping with best industry practice
